

Technical Data Sheet (TDS)

Product Name: Dispersant MF
CAS NO.: 9084-06-4

Appearance	Dark brown powder
Sodium sulphate, %	≤ 20
PH (1% water solution)	7 - 9
Insoluble in water, %	≤ 0.1
calcium and magnesium Ion, ppm	1000-4000

Performance and Usage

This product is Deep brown powder, it is soluble in water, acid, alkali and hard water, has a good diffusivity capability. The trait has a good grinding effect, high pigmentation power, high dispersion force and excellent thermal stability and so on. Mainly used for vat dyes, disperse dyes, reactive dyes as dispersing agent. The product can be carried out with various types of dispersing agent mixtures, to adapt to all kinds of disperse dyes commercialization requirements. Can also be used for textile printing and dyeing, pesticides, architecture, ceramics, rubber, paper, oil drilling, carbon black, water treatment and other industries as dispersing agent.

Package

25kg plastic woven bag with plastic lining.

Storage

Store in a cool, dry and ventilated place, keep away from rain and moisture. Under good storage conditions, if there is agglomeration, please mix it into a solution or crush it, no affecting the usage.

Shelf life

Store at room temperature for 12 months.
